# Grammar Program

## Homeschool Success Through A Classical Approach.

### Family unity with all ages studying the same topics.

- Memory work presented in the Tour Guide.
- At this age, memorization comes naturally and easily creating pegs on which students can hang future knowledge.
- Hands-on science experiments and art projects.
- Virtue is promoted in the classroom and through study of a featured saint.

## Our Schedule

### Morning Gather

- Prayer, Pledge, and Chorus

### Memory Work Homeroom

- Play games, do activities, and have fun while practicing the memory work in the Tour Guide
- Presentations, classical music, saint introduction, and snack

### Hands-on Science

- Participate in hands-on science experiments and activities—all connected to the memory work

### Hands-on Art

- Create works of art in the historically integrated art program

### Closing

### Lunch or Social Time

## Grammar Fees

**Student Fee:** \$250.00

**Supply Fee:** \$75.00

**Facility Fee:** per location

### History Timeline

The anchor of the program which other topics spring from. Five history topics are presented each week including Church history and important saints.

### History Song

As part of the memory work, a history song focuses in on a particular part of the history timeline, set to music with a catchy tune making memorizing it easy!

### Math

Skip counting is covered in the first quarter of every year of the 3 tours. The remaining 3 quarters rotate through geometry, conversions, and various facts in math.

### Music

Students participate in chorus in the beginning of chapter day. Composers and topics are selected—all integrated with the timeline.

### Latin

Students are exposed to Latin prayers (T1), basic structure through declensions and conjugations (T2), and Greek and Latin roots (T3).

### Religion

Truths of the faith through memory. Each tour has a Bible and poetry selection.

### Language Arts

Fundamentals of language including parts of speech, word relationships, and structure.

### Geography

Continent approach to geography mastered through memory, labeling maps, and drawing. Basics reviewed each year.

### Art

The art projects and artists align with the history timeline. Students learn techniques, styles, and art periods.

### Science

Four units of science each year unify the memory work. Hands-on experiments and activities.

### Presentations

Students will give two presentations each quarter in their classroom, giving them valuable practice public speaking.
